

A Program of Yelwax Solutions

Most Nigerians build businesses to survive.
Yelwa Leagues exists to change that —
giving every serious young Nigerian the tools
to build businesses that actually scale.

01 — WHAT IS YELWA LEAGUES?

A School for Business. Built for You.

Yelwa Leagues is not a seminar. It is not a WhatsApp group. It is not another motivational program that leaves you inspired but unchanged.

It is a structured, three-phase institution designed to take you from wherever you are right now — whether you have zero business experience or years of hustle behind you — and systematically equip you to build a business that actually scales.

In Nigeria, real business education has always been expensive, exclusive, or inaccessible. The Tony Elumelu's of this world got where they are partly because of access — access to knowledge, systems, networks, and mentorship that most young Nigerians never see.

Yelwa Leagues is the levelling of that playing field. Not through handouts. Not through grants that reach one person in five thousand. But through structured knowledge, accountability systems, and a community of builders who push each other forward.

> ***"The young person who understands value, money, markets, and systems is already more equipped than 90% of their peers — regardless of their academic qualifications."***

What Makes Yelwa Leagues Different

- ✦ Structured — not just content, but a system with phases, milestones, and accountability
- ✦ Tailored — your profile determines your pace, your pricing, and your learning path
- ✦ Community-driven — you grow alongside other builders, not alone
- ✦ Outcome-focused — the goal is not attendance, it is real business progress
- ✦ Backed by Yelwax Solutions — institutional support, not just a passion project

02 — WHO IS YELWA LEAGUES FOR?

Three Types of People. One Institution.

Yelwa Leagues is designed for anyone who is serious about building — regardless of where they are starting from. We serve three distinct audiences, each with their own track, pace, and pricing:

Who	Age Range	Primary Focus
Nigerian Youth	17 – 30 years	Students, campus entrepreneurs, early hustlers learning to build from scratch
Working Class	25 – 50 years	Side hustlers, small business owners, professionals exploring entrepreneurship
Organizations	Custom	Companies training staff in business thinking, marketing, and productivity

You do not need prior business experience. You do not need a degree in business. You need one thing: the seriousness to show up and apply what you learn.

03 — THE THREE PHASES

Your Journey Has Stages. Each One Builds the Next.

Yelwa Leagues is not a single workshop. It is a structured journey with three distinct phases. You cannot skip a phase — each one is the foundation for the next. But as you move through them, you will notice real, measurable change in how you think and what you can do.

01

Incubation — *Foundation Stage*

This is where your mindset is built. You learn the fundamentals — business, value, money, markets, and systems — through masterclasses, assignments, and structured exercises. Nothing is assumed. Everything is built from scratch, the right way.

Duration: 3 – 12 months depending on weekly commitment

02

Momentum — *Application Stage*

Theory becomes action. You stop just studying business and you start doing business. You test ideas in the real market, get feedback, make mistakes, and build real confidence. You are assigned a mentor and begin building the systems that run your business.

Duration: 6 – 18 months with mentor-guided milestones

03

Acceleration — *Growth & Scale Stage*

This is where you stop building and start scaling. Your business model is validated. Now we work on growing your customer base, your revenue, your team, and your market presence. Access to pitch days, investor exposure, expos, and bootcamps opens here.

Duration: Open-ended — you scale until you decide you are done

How Commitment Affects Your Pace

6 hours per week → Incubation completed in approximately 3 months
4 hours per week → Incubation completed in approximately 5 months
2 hours per week → Incubation completed in approximately 12 months

Your timetable is tailored to your availability. The pace is yours — the destination is the same.

0 4 — W H A T Y O U G E T

More Than Classes. A Complete System.

Membership in Yelwa Leagues gives you access to a full ecosystem of learning, community, and growth — not just lectures.

Learning

Weekly Masterclasses
Business 101 Curriculum
Resource Library
Podcast & Audio Content
Case Studies & Assignments

Community & Growth

Accountability Pods
Mentor Access (Momentum+)
Networking Evenings
Bootcamps & Expos
Pitch Days (Acceleration)

05 — HOW TO JOIN

The Process Is Simple. The Commitment Is Real.

Yelwa Leagues does not accept everyone who is curious. It accepts everyone who is serious. Here is how the process works:

Step 1 — You receive this brochure and read it fully.

Step 2 — You fill out our Intake Form — your background, experience, goals, availability, and digital literacy. This takes 10 minutes.

Step 3 — We assign a team member to have a call with you, where we discuss your goals and expectations.

Step 4 — Based on your profile, we send you a tailored pricing proposal covering your immediate phase, at the rate appropriate for your category.

Step 5 — You choose your phase, make payment, and receive your Welcome Package within 24 hours.

Step 6 — Within 72 hours, you are assigned to your Accountability Pod, given your timetable, and welcomed personally by the team.

Step 7 — Your journey begins.

Pricing is differential — tailored to your income profile and the phase you are entering. Youth pricing, working class pricing, and organizational pricing are structured differently so that Yelwa Leagues remains accessible without being undervalued.

CUSTOM LEARNING TRACK

A Focused Alternative to the Phase Journey

Not everyone needs the full three-phase program right now. For those who want targeted training on specific topics, Yelwa Leagues offers a Custom Learning Track — a separate format available to Youth, Working Class, and Organizations alike.

This is not a fourth membership type. It is an alternative way to join and learn.

What makes it different

Custom learners skip the accountability pods, the phase assessments, and the full progression system. They do not count as phase members. Upon completion, they receive a certificate of completion for the specific topic(s) covered — not a phase certificate.

How the Custom Learning Track works

1. Discovery meeting — we discuss your goals and the topics you need.
2. Scoped plan — we design a focused learning plan tailored to those topics.
3. Schedule agreed — sessions are arranged around your availability (no fixed group timetable).
4. Sessions delivered — you complete the agreed block of sessions.

Pricing is custom and is quoted after the discovery meeting.

06 — THE CULTURE

What Yelwa Leagues Stands For.

Every institution has a culture. Ours is intentional.

- ✦ Execution over talk — ideas without action mean nothing here
- ✦ Accountability over comfort — your pod will push you, respectfully
- ✦ Collaboration over competition — we grow together, not against each other
- ✦ No politics, no ego — your background does not define your seat at the table
- ✦ Long-term thinking — we are not building for next month, we are building for the next decade

These are not just values on a page. They are enforced by the community itself — through the pods, the sessions, the check-ins, and the culture of the people who show up consistently.

Ready to Build Something Real?
